HUNTING BLIND KITS

360 Hunting Blinds and stands come in kit form and can be transported to your remote hunting location and assembled on-site, eliminating the dangerous process of installing a fully built blind and tower. Check out the install videos and instruction manuals on our website.

WHY WE HUNT 360

There's a lot to love about the 360 Hunting Blinds! For starters, if you've ever hunted in a plastic or fiberglass blind, you will appreciate how quiet the 360 Hunting Blinds are. This helps to minimize noises from inside the blind which can spook wary game. The sliding windows can be opened quietly and effortlessly even with deer within range. This allows you to hunt with your windows closed, keeping you warm and controlling your scent. We're confident your new 360 Hunting Blind will provide countless enjoyable hours in the great outdoors AND increase your hunting success.

**8ft Metal Stand**

The perfect way to elevate your 360 Hunting Blind. Handrails on both sides make getting into your blind a breeze. Fits all models of 360 Hunting Blinds

**\$1,350**

**Stand Extensions**

The stand extensions increase the height of the 8ft metal stand to 12ft 16ft high.

**4FT EXTENSIONS \$500**  
**8FT EXTENSIONS \$850**

**Stand Leveling Kit**

Add the leveling kit to your metal stand to compensate for uneven terrain. Adjusts up to 24"

**\$225**

**5ft Metal Stand**

Perfect for those who want to hunt closer to the ground

**\$1,150**

**Wooden Stand**

360 Blinds easily accept 4x4 lumber into the built-in pockets in the floor of the blind for a build-it-yourself wooden tower stand. No additional brackets needed.

**Trailer Kit**

Add the trailer kit to your 5' stand to make your 360 Hunting Blind portable

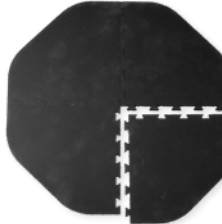

**\$1,250**

**Floor Mat**

Add the floor mat to your blind to make moving around in the blind even quieter, and to add a little bit of insulation.

**\$125**

**Bow Hanger**

Keep your bow close by and always at the ready.

**\$25**

**Anti-fog Window Cleaner**

Prevents your hunting blind windows from fogging up.

**\$20**

**Shootin' House Shelf**

**\$50**

**360 Shelf**

**\$50**

**Blind Assembly & Installation**

Get your local 360 dealer to install your 360 hunting blind for you, ensuring it is installed professionally and will last for years to come. We think you'll agree the install fee will be money well spent!

**DOUBLE WINDOW**

The double window has 2 panes; a clear one and a tinted one. In low light conditions, the tinted one can simply be latched up and out of the way while still allowing the clear window to operate normally. This eliminates the need to keep windows open in low light and increases visibility while still maintaining scent control.

**BLIND WINDOW CONFIGURATION**

Window configuration on 360 Hunting Blinds is fully customizable...Add additional archery, double, or insulated windows to your blind, or all the archery windows can be on one side of the blind if so desired. Ask your 360 Hunting Blind dealer for more details.
